PRASHANTI HOSTS A WORKSHOP ON EARLY AND ADVANCED
BREAST CANCER: 4th AND 5th NOVEMBER 2017

The 1st practical training workshop of the Masters in Breast Oncoplasty Program (UK) will be conducted on the 4th and 5th of November. This training program jointly organised by University of East Anglia (UK) and Prashanti Cancer Care Mission. The training will be imparted in the form of intensive surgical workshops with one on one interactions between mentors and peers. Various methods of practical training such as live mark-up models, surgical simulations on synthetic breast models, virtual video sessions and case-based discussion will be employed for relevant learning. Eminent faculty from UK, Dr. John Benson and Dr. Jen Smith will be conducting these sessions along with renowned faculty from all across India. This will serve as a platform to network with key opinion leaders and like-minded peers from across the world. The current cohort have students enrolled from India, Sri Lanka and Indonesia.

5 DAYS TRAINING WORKSHOP IN MUMBAI: MENDELIAN RANDOMISATION AND CANCER EPIGENETICS

Dr. Santosh Dixit attended a 5 day workshop on “ Mendelian Randomisation an Cancer Epigenetics” organised by Centre for Cancer Epidemiology, ACTREC, Navi Mumbai, University of Bristol, UK and Medical Research Council, UK during October 9-13, 2017.

कॅन्सरचे अचूक निदान

Mustafa.Attar
@mustafaattar

प्राशान्ती कॅन्सरचे प्रमाण देणारा यशदात आहे ही महिलांसाठी मोठी यशस्वी बात आहे. त्याचे वैद्यकीय योग्य निदान झाले, तर उपचार करणे शक्य आहे. वैद्यकीयशास्त्रात आता प्राशान्ती कॅन्सरचे निदान करणारे नवे संज्ञक विकसित झाल्याने निदान करणयातील अचूकता वाढली आहे.

आजकाल कॅन्सरची 'अचूक' आणि 'सुरक्षित' निदाने शक्य आहेत. प्राशान्ती कॅन्सरचे निदान करणे शक्य आहे. प्राशान्ती कॅन्सरचे निदान करणे शक्य आहे. प्राशान्ती कॅन्सरचे निदान करणे शक्य आहे.

IN THE MONTH OF OCTOBER WE WERE GLAD TO ASSIST 147 PATIENTS WITH FREE AND MAJOR CONCESSIONS IN CHEMOTHERAPY AT OUR DAYCARE ALONG WITH SURGERIES AND RADIATION

CHOSEN TESTIMONIALS OF THE MONTH

Name: Mrs. Saroj Patole

Diagnosis: Breast Cancer (Stage- II)

Chemotherapy: 3 cycles of AC + (Weekly Paclitaxel + Herceptine)- 4 cycles and 17 cycles of Herceptine – Rs. 8,84,000

I Mrs. Saroj Patole, was diagnosed of breast cancer at operated at Lokmanya Hospital. Dealing with this disease was a challenge for me and my family as I belong to a middle class family. Financially we were unstable and totally blank of how will I afford the treatment. Thanks to Dr. Koppiker and Laleh Maam for helping me receive free cycles of my chemotherapy. A very special thanks to the whole team of Prashanti Cancer Care Mission for their warmth. Once again I would like to thank Dr. Koppiker and Laleh Maam for helping me.

Name: Ranjana Takle

Diagnosis: Bilateral Breast Cancer

Chemotherapy: 12 cycles (Paclitaxel)+ 4 cycles(AC)= 40,480/- + 147000/- = 1,87,480/-

I am Mrs. Ranjana Takle, 46 year old housewife and was diagnosed with first stage bilateral breast cancer. I thank Laleh maam for helping me financially, I received my chemo cycles free of cost at Orchids Breast Health Clinic (Day Care). Everyone in the clinic were supportive, kind and caring, I would specially like to thank Dr. Koppiker for his advice, care and concern. I would once again like to thank Laleh Maam, Dr. Koppiker and their staff.

We would like to **THANK** our
Donors & Supporters

Prashanti Cancer Care Mission
Reaching out with excellence

Warm Regards,
Ms. Laleh Busheri
