The students participated in discussion and demonstration on community outreach activities conducted by PCCM. They visited camps and awareness talks conducted by primary health workers and were accompanied by Professor Anita Kar and Associated Professor Dr. Abhay Kudale (SPPU) accompanied the students

### **Testimonial of the month : Mrs. Saroj Potdar**

Patient Name: Mrs. Saroj Potdar

Occupation : Housewife

Treatment Cost : 6,64,000

Treatment details :

Surgery : Therapeutic Mammoplasty

Chemo – 4 EC ( Epirubicin + Cyclophosphamide) x 4 cycles ; weekly paclitaxel + Herceptine x 12 cycles

I am 54 year old housewife belonging to a middle class family from Pune. I was diagnosed Rt Breast Cancer when it was in 2nd stage. This news itself was a nightmare for me and my family. We were in great distress about how to deal with this disease. Dr. Koppiker and his entire team and Prashanti Cancer Care Mission has been with me and my family throughout. My entire treatment of surgery and chemotherapy worth Rs. 6,64,000 was done free of cost. I was very tensed regarding chemocycles, hair loss, adverse effects but a family like staff of Orchids helped me cope up with my fears and got me through this deadly disease. A very special thanks to Dr. Koppiker and Ms. Laleh Busheri , entire staff and supportive team of Prashanti Cancer Care Mission for their support and availability at every step of my journey through this disease.

Mrs. Saroj Potdar

We would like to **THANK** our  
Donors & Supporters

Warm Regards,

Ms. Laleh Busheri

CEO

Prashanti Cancer Care mission
